**SUPPLEMENTAL REQUEST FOR CERTIFICATE OF CORRECTION**

Sir:

Pursuant to 35 U.S.C. § 254 and 37 C.F.R. § 1.322 and further to the Notice of Refusal issued February 12, 2009, this is a supplemental request for the issuance of a Certificate of Correction in the above-identified patent to correct obvious mistakes. The complete Certificate of Correction involves one (1) page. As noted previously, in the Certificate of Correction submission of January 7, 2009, the mistakes identified in the appended form, PTO/SB/44, arose through obvious typographical errors and may be deemed consequential in nature; accordingly, the issuance of a certificate of correction is warranted.

As is apparent from a review of the record, particularly the as-filed specification, there is an obvious error in SEQ ID NOs: 38 and 47. Specifically, the amino acid at position 5 for the WAS sequence set forth in SEQ ID NO: 38 should be a leucine (LEU) rather than a valine (VAL). Likewise, the amino acid at position 5 in the heavy chain sequence set forth in SEQ ID NO: 47 should be a leucine (LEU) rather than a valine (VAL). These revisions are commensurate with and

thus supported by SEQ ID NO: 2 as initially filed on June 27, 2001. Thus, no new matter has been added.

In addition to the Certificate of Correction (Form PTO/SB/44), Patentee encloses herewith an amended Sequence Listing, in both paper and computer readable forms, as well as the requisite statement in accordance with 37 C.F.R. §§ 1.821-1.825 and the requisite fee of \$100 set forth under 37 C.F.R. § 1.20 (a). Accordingly, Patentee submits this request is complete. Thus, the issuance of the Certificate of Correction containing the noted corrections is respectfully requested.

In the event additional fees are needed in connection with the filing of this request, the Commissioner is hereby authorized to charge such fees due to Deposit Account No. 50-2101.

Respectfully submitted,

Date: **June 22, 2011**
